IT EMPLOYMENT RISES ABOVE YEAR AGO LEVELS FOR FIRST TIME SINCE 2019

Alexandria, VA, May 12, 2021 – In April, IT employment increased by 0.35% to 5,340,400 jobs, according to TechServe Alliance, the national trade association of the IT & Engineering Staffing and Solutions Industry. On a year-over-year basis, IT employment is up by 0.85% since April 2020 adding 45,200 IT workers.

Engineering employment grew by 0.14% sequentially to 2,601,500. On a year-over-year basis, engineering employment increased by 4.85% since April 2020, adding 120,400 engineering workers.

“After nine consecutive months of strong growth, IT employment on a year-over-over year basis has turned positive for the first time in 17 months” observed Mark Roberts, CEO of TechServe Alliance. “We have climbed out of deep chasm. While heartened by the strong

consecutive run of IT job creation, we have now returned to the pre-pandemic environment where there is a chronic shortage of IT professionals in many skill sets. A problem with no ready solution," added Roberts.

The following table presents information about the total number of jobs in certain sectors that provide a significant amount of employment for IT and engineering professionals.

Comparisons of TechServe Alliance's IT Employment Index to employment in some key sectors with significant numbers of IT jobs as well as to all non-farm jobs									
April 2021	TechServe Alliance IT Employment Index	Computer systems and design services	Management and technical consulting services	Data processing, hosting and related services	TechServe Alliance Engineering Employment Index	Computer and electronic product manufacturing	Professional and technical services	Federal, State, and Local Government (excluding state and local schools and hospitals)	Total non-farm jobs
number of jobs	5,340,400	2,239,800	1,597,800	357,500	2,601,500	1,082,400	9,683,800	10,783,800	144,308,000
change from previous month	+ 0.35%	+ 0.3%	+ 0.4%	+ 0.4%	+ 0.14%	+ 0.2%	+ 0.4%	+ 0.1%	+ 0.2%
change from same month, one year earlier	+ 0.85%	+ 3.1%	+ 8.2%	- 0.03%	+ 4.85%	+ 1.5%	+ 5.7%	- 0.2%	+ 10.9%

###

Technical note: TechServe Alliance's IT Employment Index and Engineering Employment Index are the first specific measurements of IT and engineering employment. These unique measurements of total IT and engineering employment are created monthly by studying the ongoing staffing patterns of a dozen IT and computer related occupations in 22 industries and industry sectors employing significant numbers of IT workers and nearly two dozen engineering occupations in 30 select industries and industry sectors employing significant numbers of engineering workers. Both the monthly IT Employment and Engineering Employment Indices are based on U.S. Bureau of Labor Statistics (BLS) data, which is subject to monthly revisions, and is revised accordingly. Both indices are also subject to periodic revisions and annual rebenchmarking that includes revisions to several years of employment data, which also may incorporate new occupational definitions. Both indices were re-benchmarked going back several years through January 2021 data. In addition, both indices are subject to minor revisions to March and April data. The next major revision will be published in February 2022.

ABOUT TechServe Alliance

TechServe Alliance is the national trade association of the IT & Engineering staffing and solutions industry. Hundreds of IT & Engineering staffing and solutions firms and tens of thousands of affiliated professionals, count on TechServe Alliance to keep their leadership informed, engaged, and connected. TechServe Alliance serves as the voice of the industry before the policymakers and the national and trade press. By providing access to the knowledge and best practices of an entire industry and tapping the "collective scale" of hundreds of companies, TechServe Alliance supports its members in the efficient delivery of best-in-class IT & Engineering staffing and solutions for clients and exceptional professional opportunities for every consultant.
